

AMS Alaksandar Jesus Gene

alaksandarjesus@yahoo.co.in | +91-9042013581

Full-Stack Developer

Professional Summary

Versatile Software Developer with extensive experience in PHP, Node.js, Express.js, Python, WebSocket, MySQL, MongoDB, and frontend frameworks including Angular, React, Vue.js, jQuery, and TypeScript. Skilled in building end-to-end web applications, APIs, and automation tools, delivering scalable, production-ready solutions while collaborating with cross-functional teams. Experienced in contract and full-time projects, integrating real-time systems, third-party services, and mentoring teams. Seeking opportunities to leverage full-stack expertise and problem-solving skills to drive innovative software solutions.

Skill Set

PHP, Laravel, Slim, CodeIgniter, Node.js, Express.js, Python, WebSocket, TypeScript, MySQL, MongoDB, Angular, React, Vue.js, jQuery, React Native, WordPress, H5P, RESTful APIs, API Development, Frontend Development, Backend Development, Full-Stack Development, Responsive UI, Authentication, Role-Based Systems, Automation Tools, Server Management, Deployment, Debugging, Testing, Mentorship, Agile/Contract Projects, AI Integration, Real-Time Applications

Work Experience

Skriptx | June, 2024 – Present

Lead Developer – Contract Projects

- Delivered end-to-end web applications and automation tools for multiple contract projects.
- Built scalable backend systems using PHP, Slim, JavaScript, and MySQL with REST APIs, authentication modules, dashboards, and automation workflows.
- Managed servers, optimized performance, and provided technical training to learners and teams.
- Strengthened ability to deliver production-ready solutions independently and meet tight deadlines.

Straive | Jan, 2021 – Jan, 2024

Senior Executive

- Developed web applications and internal platforms using Angular, PHP, MySQL, and modern JavaScript.
- Built responsive interfaces, reusable components, and optimized UI performance.
- Developed backend PHP modules, implemented APIs, and ensured application stability and security.
- Participated in debugging, testing, deployment, and maintenance cycles, delivering reliable solutions under tight timelines.

iSeedTechnologies | Jan, 2017 – Jan, 2021

Software Developer – Contract Projects

- Delivered full-stack web applications, automation tools, and backend systems across multiple client domains.
- Built backend logic with PHP, MySQL; frontend interfaces with JavaScript; integrated REST APIs.
- Managed full development lifecycle: requirements gathering, coding, testing, deployment, and maintenance.
- Provided technical mentorship and delivered scalable, high-quality solutions independently.

WeHire | Jan, 2011 – Jan, 2017

Software Developer

- Designed, developed, and maintained web-based applications and internal recruitment tools.
- Implemented backend systems with PHP, MySQL, and dynamic front-end interfaces with JavaScript.
- Integrated APIs to streamline workflows and automated repetitive tasks.
- Delivered production-ready software, managed multiple projects, and ensured reliable performance in a fast-paced environment.

Projects

Project Name	Client / Company	Tech Stack
Genveth – Internship Bridge Platform	Genveth (Skriptx)	Node.js, Express.js, MongoDB, React Native, WebSocket
Money Transfer App – API Development	Remit Globe (Skriptx)	PHP, Slim Framework, MySQL, RESTful APIs
Gold Purchase Plan	Mahizhmathi (Skriptx)	React Native, Node.js/PHP, MySQL/MongoDB, RESTful APIs
Medical Wizardry Reconstruction	Medical Wizardry (Skriptx)	WordPress, PHP, MySQL, H5P, JavaScript, CSS
Codwith – online coding platform	Skriptx	Custom PHP Framework, Vanilla JS, Golden Layout
Silicon-Craft	Silicon Craft (Skriptx)	Parcel JS, HTML, CSS
HDL Studio	Silicon Craft (Skriptx)	Vite React, Shadcn, Custom PHP framework
PeerLocator	Straive	Angular, Slim, Websocket, Node, Chrome Plugin, Python
Image Annotator	Straive	Angular, Code Igniter, MySQL,
Bulk Image processing	Straive	Photoshop
zipcaars	Zipcaars (iSEED Technologies)	Angular, Slim

gausoft	Jivasci (iSEED Technologies)	Angular, Laravel
pyguru	IIT Mumbai(iSEED Technologies)	Wordpress, MonacoEditor, Judge0
schooledn	PEC, Puducherry (iSEED Technologies)	Laravel, Vue
